

EXPERIENCE GOTHENBURG!

We wish you a warm welcome to Gothenburg! During your visit you'll have the opportunity to experience some of what this joyful west coast city has to offer – at a relaxed tempo, more tempo and action-packed and exciting. Pick the activity for Saturday afternoon that sounds best.

THE CHALLENGE

Welcome to a fun and fast-paced activity! You have a strategic challenge ahead of you and will be working against the clock. We've set up more than 100 missions, all worth different points. Cooperation and being on the correct geographical spot are of the greatest importance since the codes for certain missions are controlled via GPS. Everyone has to get involved and you must set priorities. And as an added bonus, you'll get to explore Gothenburg.

CULTURE AND KNOWLEDGE

With map in hand, you'll set out into the city to find some of Gothenburg's most well-known sights, and as well as some of those more little-known, special places. Working as a team, your knowledge will be tested on various topics and you'll have a number of questions to work out, at the same time as you get to enjoy the fresh west coast air and maybe even go to "Feskekörkan" along the way.

PADDAN – SIGHTSEEING BY BOAT

Take a seat, put on the sunglasses and lean back and relax. We'll take you on a tour under the city's many and low bridges. See the old moat and canals from the 1600s. We'll be passing through the fascinating Port of Gothenburg with its classic shipyards, the fishing docks, new and old residential areas, marine museums and more.

JOGGING – FOR THE PURE JOY OF RUNNING

Take the chance to get out and move around – at a nice and relaxed pace. We'll be jogging to free those endorphins before the evening's activities get underway, and at the same time, see a little of Gothenburg and hear about the city at a few stops along the way. We'll be jogging at about 5.30–6.30 min/kilometers. The total time will be about an hour and a half, including breaks.

RUNNING – FOR MORE OF A CHALLENGE

This group will take the opportunity to build up those thigh muscles for the dance floor. We'll be moving at a faster pace and passing several of the city's sights, with stops along the way to catch our breath and at the same time, pick up a little knowledge about the city. We'll be running at about 4.30–5.30 min/kilometers. The total time will be about an hour and a half, including breaks.

VOLVO CARS CENTER

You'll be picked up by a Volvo bus that will take you to the Volvo Cars Center. There you'll be divided into two groups and take turns going on a guided tour and test driving Volvo's latest models.

Guided tour of Volvo Cars Brand Experience Centre

The Volvo Cars Brand Experience Centre houses the company's exhibitions on design, safety, environment and connected cars. There are many interactive areas to challenge your perceptions, widen your views and to show where Volvo is today as well as the company's way forward.

Test drive of the latest Volvos, Volvo Cars Demo Centre

You'll have the opportunity to test drive Volvo's latest models, including the XC90 T8, on a specially built country road for an authentic driving experience. Needless to say, participants must have a valid driver's license and zero blood alcohol level.

Total time is about 3 hours. With only 60 spots available, it's first come, first served.
