

Prevas

Environmental Policy

Prevas is a development hub with ingenuity at its core. With high technical expertise and deep business understanding, we help customers from chosen industries to benefit through continuous technological innovation. Good for people, the planet and profits.

We take environmental responsibility by committing ourselves to the following principles:

Promote Sustainable Development

Closely link our work with improving the environment with our vision and mission.

Do good for the environment through our assignments, where we can make the biggest impact.

Develop technical solutions through an environmentally conscious design process.

Reduce Environment Footprint

To continue minimizing the negative environmental impact of our operations, for example:

- striving for environment-friendly traveling
- replace traveling with digital meetings when possible
- purchase recyclable and environment-friendly products and services whenever it is economically viable.

Continuous Improvement of our Environmental performance

Strives to be an environmentally responsible organization that complies with all relevant laws and regulations.

Continuously improve our environmental management as an integrated part of the quality management system and our daily operations, with influences from ISO14001 and UN's Global Goals in Agenda 2030.

Develop awareness of environmental impact and sustainability within the organization.
