## **STATEMENT BY THE BOARD PURSUANT TO CHAPTER 19, SECTION 22 OF THE SWEDISH COMPANIES ACT**

The Board of Directors' of the company will propose that the general meeting authorises the Board to, on one or several occasions, for the period until the next Annual General Meeting, acquire own class B shares. The Board's proposal on acquisition of own shares allows for own shares to be acquired to the extent that the company's holdings of own shares in total amounts to no more than one tenth of all the shares in the company. Acquisition of own shares must take place in cash and at a price not higher than the higher of the price of the last independent trade and the highest current independent purchase bid on Nasdaq Stockholm. Acquisition may not be made at a price lower than the lowest price at which an independent acquisition can be made. Following the Board's proposal, the Board makes the following statement pursuant to Chapter 19, Section 22 of the Swedish Companies Act (2005:551) (the "SCA").

The General Meeting has at its disposal profits carried forward of SEK 169,655,240, which is increased with the net profit for the year of SEK 25,969,294. Thus, the General Meeting has in total a non-restricted equity of SEK 195,624,534 at its disposal. A full utilisation of the repurchase mandate amounts to SEK 109,395,603, which comprises 46 per cent of the company's equity and 16 per cent of consolidated equity. If the authorisation for the Board is fully utilised, the company's equity to assets ratio is reduced from 28.1 per cent to 17.4 per cent and the group's equity to assets ratio is reduced from 51.2 per cent to 46.9 per cent.<sup>1</sup>

The company's and the group's equity are assessed to be sufficient in relation to the nature, scope and risks of the business despite the Board's full utilisation of the authorisation. In making this assessment, the Board has considered, among other things, the company's, and the group's historical development, its budgeted development and financial situation. As per the day of the balance sheet, the company owned no financial instruments that had been valued at fair value pursuant to Chapter 4, Section 14 a of the Swedish Annual Accounts Act (1995:1554).

The Board has evaluated the company's and the group's financial position and the company's and the group's possibilities to fulfil their obligations in the short- and long-term perspective. The company's and the group's solidity are assessed to be good after a full utilisation of the authorisation, with regard to the industry in which the company and the group is active.

The company's and the group's ability to fulfil its payment obligations will not be affected by a full utilisation of the authorisation. The company and the group have access to both short and long term credit facilities. These facilities may be utilised at short notice, for which reason the Board assesses that the company's and the group's preparedness to handle both changes in the liquidity and unexpected events are good. The company's and the group's liquidity are assessed to be good with regard to the industry in which the company and the group is active.

The Board deems the company and the group able to take future business risk and to bear possible losses. The company's and the group's ability to make further commercially motivated investments in accordance with the Board's plans will not be negatively affected by a full utilisation of the authorisation.

---

<sup>1</sup> Based on closing share price as per the March 31, 2026.

In view of the above and based on what the Board is otherwise aware of, and after a comprehensive assessment of the financial position of the company and the group, the Board considers the proposed authorisation to be justifiable in view of the parameters stated in Chapter 17, Section 3, paragraphs 2 and 3 of the SCA. When making this assessment, the Board has taken into consideration the demands with respect to size of shareholders' equity which are imposed by the nature, scope and risks associated with the operations of the company and the group, and the company's and the group's consolidation needs, liquidity, and financial position in general.

The Board will also propose that the general meeting resolve on dividend of SEK 4 per share. The Board's assessment in this statement applies even if the company pays dividend as proposed. The Board has issued a separate statement pursuant to Chapter 18, Section 4 of the SCA by reason of the dividend proposal.

The proposed dividend (of total SEK 51,540,920) and a full utilisation of the repurchase mandate (of total SEK 109,395,603) amounts in total to approximately SEK 160,936,523, which comprises 67.7 per cent of the company's equity and 23 per cent of consolidated equity. If the General Meeting resolves on the proposed dividend and the authorisation for the Board is fully utilised, the company's equity to assets ratio is reduced from 28.1 per cent to 11.2 per cent and the group's equity to assets ratio is reduced from 51.2 per cent to 44.7 per cent.<sup>2</sup>

The financial position of the company and the group as of December 31, 2025, is described in the Annual and Sustainability Report for 2025. The Annual and Sustainability Report will also state which accounting principles have been applied in valuing assets, provisions and liabilities. No material events subsequent to the day of the balance sheet have occurred that affect the company's ability to repurchase shares.
